

Dowd's - The Trane Comfort Specialists!

Residential

We are Certified Trane Specialists with additional Environmental Protection Agency (EPA) certification dedicated to ensuring that your heating and air conditioning units run as smoothly and efficiently as possible.

Commercial HVAC

We install HVAC equipment in new office and commercial construction, as well as upgrades and replacement of aging and inefficient systems.

Service and Repairs

Dowd's maintenance and repair services keep your systems operating at optimal efficiency to avoid costly repairs and reduce your energy bill. And, whenever a problem does occur, we offer 24 hour emergency repair services.

Welcome to
Dowd's HVAC
A Philadelphia Area Institution!

Dowd's
Heating & Air Conditioning

When we say Dowd's HVAC is a "Degree Above The Rest" we mean in quality, service, expertise and Philadelphia area pedigree!

As an EPA Certified Dealer, no one can match Dowd's for the ability to inspect, install and maintain HVAC units for commercial and residential customers. As a local institution, we're the firm others turn to for work ranging from the relatively simple to the highly complicated.

Our Roots Show We're Cool!

Our founder Joe Dowd's dad was a Philadelphia fireman - so you can say service and dedication to our community is in our blood. Because we're local, you know we'll be there when you need us - no matter the time of day or night - that's important because you won't have to teach us the difference between Kennett Square and Newtown Square or how to get from Center City Broomall. We know there's no crown at King of Prussia. We can spell "Conshohocken" without being spotted any vowels and we love our Scrapple with syrup on it and our cheese steaks "Wit."

If the HVAC contractors you are talking with can't pass the Delaware Valley test - then you need to call Dowd's! The value of using a local contractor will come into play when you need experts who know the region - who know HVAC - and are part of the local community.

Joe Dowd,
President

See What Our Customers Have To Say

"When it came time to redo our system, it wasn't even close. We went with Dowd's. They had the expertise and the ability to provide us with the 24-hour service we require."

Michael's Restaurant, Morrisville, PA

"Our system is quite complicated - and we can't afford to have it fail. Dowd's knows what they are doing. They gave us the best price and their service is outstanding."

Philly Soft Pretzel, Bensalem, PA

"Dowd's professionalism was evident from the moment their personnel came into our home. They were experts in what they were doing, and they explained all of our options."

Lynn & Mario Parlapiano, Willow Grove, PA

"As far as we're concerned there's Dowd's and there's no one else. Dowd's people are friendly, and they really know their business."

Sonia & Rich Ryan, Bensalem, PA

"We've known about Dowd's for years. Our neighbors told us they were the best. When it came time to choose a HVAC contractor for our project, it wasn't even a contest - we only called Dowd's."

Nicole & Dan Dizio, Newtown, PA

At Dowd's, our expertise will save you time and money and with Dowd's you know you are dealing with local experts.

Dowd's Means HVAC & Respect For Our Customers

Every customer, large or small, is treated with respect and given the very best service possible. Dowd's serves the entire Delaware Valley - From Center City Philadelphia to outer Montgomery and Bucks counties and beyond.

Have a HVAC project? Call Dowd's first for an estimate and to discuss your options.

Dowd's Expertise Is Unmatched!

Heating

Dowd's offers the highest quality in HVAC installation and repair at the most affordable prices. We are proud to feature Trane Products - the top name in HVAC.

Air Quality

To keep your HVAC system running at peak potential, you'll need to have it inspected and cleaned periodically during its lifetime. Call us and ask about our inspection and repair services.

Solar

Solar heating and air conditioning can be used anywhere the sun shines and helps reduce our nation's reliance on fossil-fuel generated power. Tax incentives now in place can help reduce the cost of the installation of a new solar system.
